EDUCATION

BSc. Computer Science

Egerton University
2023 – 2027 (Expected)

- Programming
- Software Engineering
- Database Systems
- Data Structures & Algorithms
- Web Development

TECHNICAL SKILLS

- Python Programming
- HTML & CSS
- JavaScript (Basic)
- Flask Framework
- SQL & Databases
- Git & GitHub
- Software Engineering
- Microsoft Office / Google Workspace

LANGUAGES

English — Fluent
Swahili — Native

STRENGTHS

- Quick Learner
- Detail-Oriented
- Self-Motivated
- Team Collaborator
- Adaptable

Chrisper Mwangi

Computer Science Student • Web Developer • Nairobi, Kenya

Professional Summary

Motivated Computer Science student at Egerton University with hands-on experience building web applications, management systems, and e-commerce platforms. Proficient in Python, HTML/CSS, Flask, and Git. Passionate about AI systems, software development, and delivering clean, functional digital solutions. Actively seeking remote opportunities in web development, AI training, data annotation, and entry-level tech roles.

Projects

Portfolio Website

HTML · CSS · JS · Tailwind

kris-portfolio-website.vercel.app

- Built a fully responsive personal portfolio with dark/light mode, glassmorphism UI, and AI chat widget.
- Deployed on Vercel with GitHub CI/CD integration and Formspree contact form.

Bead Artwork E-Commerce Website

HTML · CSS · JavaScript

kris4509.github.io/bead-artwork-ecommerce-website

- Developed a full e-commerce showcase for authentic Kenyan handcrafted beadwork.
- Implemented dynamic product catalog, WhatsApp ordering, hero slideshow, and lightbox gallery.

Lecture Management & Scheduling System

Python · UML · DB Design

- Designed a university scheduling system with venue management and timetable clash detection.
- Produced UML diagrams, workflow charts, and backend database logic using Python.

Student Funds Management System

Python · Database Concepts

- Conceptualised a digital solution for tracking student pocket money and financial records.
- Focused on accountability workflows tailored to Kenyan school environments.

Experience

Freelance Web Developer & Tech Enthusiast

Remote | 2022 – Present

- Designed and deployed multiple personal web projects using HTML, CSS, JavaScript, and Python.
- Adopted modern development workflows: Git version control, GitHub hosting, and Vercel deployment.
- Researched and experimented with AI tools, APIs, and online collaboration platforms.

Additional Information

- Available for remote / online work arrangements.
- Interested in AI training, data annotation, content evaluation, and software testing gigs.
- Comfortable picking up new tools and frameworks quickly.
